

THE BATTERY GENIUS

GENIE COMPACT SCRUBBER DRYER

Steam
Victoria
VAPOR CLEANING TECHNOLOGY

True to its name, Conquest's battery Genius has revolutionized the cleaning industry. Eliminating manual cleaning systems the Genie saves time, increases productivity and produces a significantly better result.

The Conquest Genie is the smallest auto scrubber. With all the features of a large scrubber dryer the Genie can perform all those cleaning operations traditionally carried out manually with a mop and bucket. By removing the dirty water and leaving the floor dry and safe, hygiene levels are greatly increased and safety issues are removed thanks to the Genie.

The 180° adjustable handle and the Conquest parabolic squeegee system ensures the Genie cleans and dries right into tight corners, and conveniently folds up neatly for compact storage.

The Genie BS model includes the ability to sweep light debris as you scrub, a complete 2 in 1 action.

FEATURES

- Particularly suitable for cleaning floors in cluttered areas where manual systems (mop and bucket) are still being used
- The operator can perform the cleaning operations easily, without effort or stress
- Increases operator productivity by 30% compared with manual cleaning systems
- Washes and dries in a single pass. Immediately after cleaning, the floor is perfectly dry, presenting no risk of slipping
- A scrubbing machine that's really easy to move from one place to another due to its folding handle and dis-mountable tanks, even fitting into the back of a standard car
- On board battery charger makes it possible to keep the Genie charged up and ready to use no matter where you are
